

## Blair Bones, MPT

### Bio

---

Blair has 25 + years of experience in Orthopedic Physical Therapy. She has been with OrthoCarolina since 2006. Her medical family and participation in high school and college sports led to her interest in the field. She utilizes a variety of manual techniques ( Paris, Mulligan, Maitland, Instrument-Assisted Soft Tissue Mobilization), particularly with the spine, as well as specialized modalities such as Blood Flow Restriction to assist with prescribed exercise which allows her patients to return safely to their prior activities. She enjoys spending time with her two active dogs, cooking and reading.
