

Michael W. Aversano, MD

Education

- Loyola University Maryland- Bachelor of Science
 - University of Auckland
- University of Pennsylvania Perelman School of Medicine- Doctorate of Medicine
- NYU Langone Hospital- Hand Surgery Fellowship

LOCATIONS

- Brachial Plexus and Limb Paralysis Center
- Congenital Hand Clinic
- Hand Center
- Spasticity Clinic

Practice

- Brachial plexus birth palsy
- Arthrogryposis
- Neuromuscular conditions
- Congenital hand

CLINICAL SPECIALTIES

- Hand
- Specialties
- Pediatric

Awards

- Four-Year Charles H. Hovies Academic Merit Scholarship to the University of Pennsylvania School of Medicine
- 2019 AFSH-HVO Young Surgeon Traveling Fellowship Grant (Outreach site: Kumasi, Ghana)
- 2018 & 2019 ASSH Travel Scholarship Grant Recipient
- Sarah Pettrone, M.D. Memorial Scholarship: American Society for Surgery of the Hand Annual Meeting (2017)
- International Pediatric Orthopaedic Symposium Full Tuition Scholarship (2016)(2017)
- The Suffolk County Academy of Medicine – Doctors of Tomorrow Scholarship
- Stanford University School of Medicine Underrepresented Minorities Visiting Student Clerkship Scholarship
- Harvard Medical School Visiting Clerkship Program Scholarship
- Advanced Medical Spanish Course Certificate (2009-2010)

- International Fellowship in Pediatric Upper Extremity Microsurgery: Vall d'Hebron Hospital (Barcelona, Spain)

Research

Publications

Crusades of the Early 20th Century. National Youth Leadership Forum on Medicine Conference. July 2004.\

Grant Awards

- Kevin Heaney and Judi Marvel Charities Summer Brain Tumor Research Grant: The Children's Hospital of

Philadelphia (2010-2011)

- Advisor: Dr. Philip Storm, Department of Neurosurgery, The Children's Hospital of Philadelphia

- Clinical Research Projects:

- 1) Brachial plexus injuries
- 2) Spinal fusion in irradiated pediatric patients
- 3) Animal models for deep brain stimulation,
- 4) Endoscopic third ventriculostomy
- 5) Long-term monitoring for epilepsy.

Scientific Field Research

• Research on Communal Infant Care in Cotton-top Tamarins (Auckland, New Zealand - 2008)

- Advisor: Dr. Jean P. Boubli

- Observational Research Project at the Auckland Zoo: Cotton-top tamarins as a model for social hierarchy and

communal rearing in new world primates. Focus on behavioral patterns of infant care amongst generations and the

costs/benefits of infant carrying.

Basic Science Research

• Department of Physiology and Biophysics, SUNY Stony Brook University Medical Center (Summer 2006 –

Summer 2009)

- Advisor: Dr. Irene Solomon

- Research projects: Function of gap junctions and electrical coupling on CO₂-chemoreception, respiratory

rythmogenesis, and respiratory motoneuron output in the brainstem. Analysis of the various isoforms of connexin

comprising gap junctions to assess differences in cellular expression of connexin proteins in certain respiratory

centers of the brain and the associated breathing patterns that each location produces under an induced chemo-

response.

• Research on Anti-Mitotic Cancer Therapy using Yeast Model System – Biology Professor – Dr. Hardwick,

Loyola College (Fall 2005 – Spring 2006)

- Advisor: Dr. Hardwick

- Research Project: 1) Role of microtubules on structural instability and the unregulated growth phase of neoplastic

cells using a yeast model system. 2) The effects of anti-mitotic agents on the appearance of the microtubular

apparatus during cell division

Team

- American Society for Surgery of the Hand (ASSH) - Candidate Membership
- Pediatric Orthopedic Society of North America (POSNA)
- American Academy of Orthopaedic Surgeons (AAOS)
- American Medical Association (AMA)
