

## J. Taylor Bellamy, M.D.

### Bio

---

J. Taylor Bellamy, M.D. is a board-eligible, fellowship-trained orthopedic spine surgeon. Dr. Bellamy has a particular interest in minimally invasive techniques and treats all spinal conditions of the neck and back including degenerative, traumatic, deformity, and oncologic conditions.

Dr. Bellamy graduated Magna Cum Laude from the University of Georgia, completing his bachelor's degree with a double major in Biology and Psychology. He received his Doctorate of Medicine from the Emory University School of Medicine and continued at Emory for his orthopedic surgery residency. He then completed his spine surgery fellowship at Harvard University, training at both Massachusetts General Hospital and Brigham & Women's Hospital. At Harvard, he received extensive training in all aspects of complex spine surgery, including the utilization of the most advanced techniques and technologies currently available. He has authored numerous publications and book chapters, while also presenting at both national and international orthopedic conferences.

Dr. Bellamy takes pride in helping patients navigate their spine issues. He believes in a patient-centered approach, tailoring his treatments both non-operatively and operatively to the individual patient's needs. His goal is to help patients restore their lives by utilizing the most minimally invasive techniques possible.

Outside of his professional pursuits, Dr. Bellamy enjoys mountain biking, soccer, football, and spending time with his wife who is also a physician in the Winston-Salem area.

### Education

---

- University of Georgia- Bachelor's degree in Biology and Psychology
- Emory University School of Medicine- Doctorate of Medicine
- Harvard University- Spine Fellowship

### LOCATIONS

- Clemmons
- Winston-Salem Spine Center

### CLINICAL SPECIALTIES

- Specialties
- Spine

## Practice

---

- Minimally invasive spine surgery (MIS)
- Adult degenerative spine surgery of the cervical, thoracic, and lumbar spine
- Motion preservation technology / total disc arthroplasty
- Adult spinal deformity and scoliosis surgery
- Traumatic spinal injuries
- Spinal tumors
- Computer navigation-assisted spine surgery

## PROFESSIONAL MEMBERSHIPS

American Academy of Orthopaedic Surgery, American Board of Orthopaedic Surgery, North American Spine Society, Cervical Spine Research Society, Georgia Orthopaedic Society

## Awards

---

- Thomas E. Whitesides Award for Resident Research
- Georgia Orthopaedic Society Resident Research Award
- Eastern Orthopaedic Association Resident Research Award
- High Honors, University of Georgia Honors Program
- Magna Cum Laude, University of Georgia
- Phi Beta Kappa Honor Society, University of Georgia
- Alpha Epsilon Delta Honor Society, University of Georgia
- Zell Miller Scholarship, University of Georgia
